

PANHA NHEAN

WEB DEVELOPER

CONTACT

- +885 978 211 204
- panha.nhean@student.passerellesnumeriques.org
- BP 511, Phum Tropeang Chhuk (Borey Sorla) Sangtak, Street 371, Phnom Penh

EDUCATION

- 2020 - 2023
High School certificate (Bac II)
Hun Sen Prasat Bakong high school
- 2024 - Present
Pursuing AssociateDegree
Passerelles NumeriquesCambodia (PNC)
Major : Web Development

SOFT SKILLS

- Punctual
- Teamwork
- Work hard
- Collaborate
- Problem solving
- Adaptability
- Task management
- Responsibility
- Time management
- Critical Thinking

HARD SKILLS

- CSS
- Design
- PHP
- Veu.js
- HTML
- Laravel
- MySQL
- Firebase
- JavaScript
- OOP with typescript
- Bootstrap 5
- Node JS(Basic Rest API)
- Algorithm using python
- Data Analytic with Power BI

PROFILE

- Full name : Panha Nhean
- Place of birth : Siem Reap
- Sex : Male
- Date of birth : 02-11-2004
- Nationality : Khmer
- Marital Status : Single

WORK EXPERIENCE

Project at school

Virtual Company 1 (VC1) (March 10, 2025 – April 2, 2025)

- Build: POS System and E-Commerce Website (Salon)
- Roles: Developer and Data Analyst
 - Designed in Figma, focusing on Desktop and mobile responsive
 - Built a POS system to manage in-store, inventory and customer profiles.
 - Developed the e-commerce website using HTML, CSS, Bootstrap 5, and JavaScript, including:
 - Product catalogue pages with filtering, sorting, and detailed product views.
 - Shopping cart and checkout functionality integrated with a backend.
 - Built the backend using PHP in an MVC structure

JavaScript Project (January 14, 2025 – January 29, 2025)

- Build: Inventory
- Roles: Team Leader
 - Led a team to design and develop an inventory management system using JavaScript, HTML, and CSS.
 - Implemented functionalities such as adding, updating, and tracking inventory items dynamically with JavaScript.
 - Managed team collaboration and task distribution for efficient workflow and timely delivery.

Algorithm Project (November 18, 2024 – November 28, 2024)

- Build: Face Detection
- Roles: Team leader
 - Led the development of a face detection application using Python (algorithmic) techniques.
 - Developed functionality to scan faces through a webcam feed and automatically display identified names from the dataset.

Web Design Project(October 21, 2024 – November 5, 2024)

- Build: MUSIC BAND
- Roles: Team Leader
 - Designed and developed a fully responsive website for a music band.
 - Utilised HTML, CSS, and SASS to create a clean and consistent design.
 - Collaborated with the team using Git for version control and smooth code integration.
 - Identified and resolved bugs during development

DEVELOPMENT TOOLS

- Git
- Jira
- AWS
- Linux
- Git Hub
- Figma Design
- Nestify / Vercel
- MS Office (Word, Excel, PowerPoint)
- AI tools (ChatGPT, Gemini, Poe, Deepseek)

LANGUAGES

- Khmer : Mother Tongue
- English – Intermediate Level
 - Writing: Good (75%)
 - Reading: Excellent (90%)
 - Speaking: Good (75%)
 - Listening: Good (75%)

INTEREST AND HOBBIES

- Play Football
- Listening Music
- Learning new programming languages

TECHNICAL WORKSHOPS

Product Owner Workshops

Facilitator: Felix Leuker (Senior Digital Project Manager)

Dates: January 18 & 25, 2025

- Gained foundational knowledge of the Product Owner role, responsibilities, and project impact.
- Practiced requirement gathering, writing user stories, and using Jira for agile project management.

UX/UI Design Workshops

Facilitator: PJ (UX/UI Designer, Sourceamax Asia Co., Ltd)

Dates: February 7 & March 14, 2025

- Learned to convert project requirements into wireframes, prototypes, and mockups.
- Participated in a hands-on mini project to apply design logic and UI principles.

Data Analytics Workshop

Facilitator: Felix Leuker & Solution BI Staff

Dates: March 19, 2025

- Developed skills in data preparation and visualisation using Python and Power BI
- Interpreted raw datasets to extract and communicate meaningful business insights.

Project Management Workshop

Facilitator: Felix Leuker (Senior Digital Project Manager)

Dates: February 8, 2025

- Explored roles in agile development, including Product Owner, Scrum Master, and Dev Team.
- Gained experience with Jira, Git, GitHub, and user stories in agile workflows.

Dear HR Manager,

I am excited to apply for the Web Developer position at your company . With a foundation in both back-end and front-end technologies, coupled with hands-on experience in database analysis and system integration, I am confident in my ability to contribute effectively to your team.

During my time at PNC, I worked on a variety of projects that helped me develop both technical and teamwork skills. In the Design Project, I created user interface layouts using Figma. For the Web Design Project, I built responsive websites using HTML, CSS, and Bootstrap. In the JavaScript Project, I developed an Inventory App with dynamic features. I also created a Face Detection system using Python as part of the Algorithm Project. Additionally, I collaborated with a team to develop a Beauty Salon Management System in the Virtual Company I Project.

As I near the completion of my program at PNC, I have gained solid knowledge in Microsoft Office, logic building, software testing, and design. My technical skill set includes HTML, CSS, Python (Algorithms), JavaScript, MySQL, Bootstrap 5, PHP, TypeScript, Node.js, Vue.js, Laravel, and OOP concepts, along with experience in data analysis. I have also used tools like Jira, GitHub, Power BI, and Figma to manage and support project development.

I am enthusiastic about joining a dynamic and innovative team like yours and am confident in my ability to support your development efforts across both front-end and back-end areas. I would appreciate the opportunity to further discuss how my background aligns with your needs. Please feel free to contact me to schedule an interview at your convenience.

Sincerely,

A stylized, handwritten signature of 'Panha' in black ink, with a small '+' symbol above the end of the word.

Panha Nhean
